Your One-Stop-Shop for GTM - Globally

Management Board: MIC-Headquarters

WORLD CLASS GTM SOLUTIONS BY MIC

For over 37 years, MIC has been delivering Global Customs and Trade Compliance Management Software, offering the most comprehensive product suite as a global one-stop shop.

Software Development

We build high-quality Global Trade Management solutions with well-proven technologies. Ready for Software-as-a-Service (SaaS).

Project Management

Building a GTM solution that works best for you? We spare no effort to configure MIC's solutions to meet your requirements. Best of both worlds: MIC technology and your industry expertise.

Support & Maintenance

We provide long-term system and application support, as well as maintenance, to keep your GTM application up to date and ensure optimal performance in accordance with current customs and trade compliance regulations. Our service also includes regular maintenance.

OVERVIEW

PRODUCTS &

SERVICES

MIC GTM SOLUTION

Data Analytics & Visualization

Collects, translates and transforms data from different sources (e.g. authority reports, broker declaration data, MIC modules, internal IT-systems) into readable language according WCO, EU and country-specific datasets. In context with trade content such as customs tariffs and free trade agreements these datasets turn into usable information that is visualized quickly and easily for analysis and interpretation.

Central Classification System

Increased degree of **automation** for assignment of customs tariff & export control classification to products based on user-validated selection and matching rules, decision trees and Artificial Intelligence/Machine Learning (AI/ML) suggestions using latest technologies like Natural Language Processing (NLP) in combination with Computer Vision (CV). Continuously updated national customs tariffs and export control commodity lists ensure that product classifications are validated against accurate national information

Origin Calculation System

Automated preferential and non-preferential origin calculation for over 250 free trade agreements in productive usage. Management of supplier solicitation process as well as electronic exchange with suppliers via web portal.

Customs Filing

Automated electronic export and import customs clearance processes including special customs regimes and inventory management, directly interfacing with the appropriate national governmental system:

AES, AIS, NCTS, IPR, OPR, BWH, PCC, Drawback, FZ, FTZ, Intrastat, SASP, EMCS, IMMEX, AFD etc.

“We Do The Last Mile”

Export Control Management

Central check of business transactions as required by export law, including screening against sanction lists, embargo checks, end user/end use check resp. dual-use reviews, identification of licensing requirements and license management.
